- Start of operations: 2006 (restart mining), 2009 (production).
- Underground mining.
- Three sites in operation in the province of Huelva.
- Aguas Teñidas Mine and Magdalena Mine in the municipality of Almonaster La Real. Sotiel Mine in the municipality of Calañas.
- Employment: 2,000 direct / contractor jobs and 2,000 induced jobs.
- 2016 Production (t): 300,345 (copper); 161,900 (zinc); 20,800 (lead)
- Resources: Over 100 million tons

The visit will start with the viewing of a corporate and safety video at MATSA's main offices. Then the group will tour the facilities by bus from the Santa Eulalia mine entrance to the industrial area. Later we will visit the test-drilling building and the ore processing plant to end up in the observation point to get a global view of the industrial area. Once the visit has finished the group will return to the central offices for lunch. After lunch, the group will travel back to Seville.
